SEBA™ Solutions Inc.  
Attn: Dr. James T. Brown, President  
1311 North Highway US 1  
Titusville, Florida 32796

Dear Dr. Brown:

The purpose of this letter is to express appreciation for the powerful and dynamic workshop SEBA™ Solutions provided for NASA Kennedy Space Center Education Programs and University Research Division, 2004 Education Programs Student Participants at the Kennedy Space Center on "*Managing Your Career.*"

This year the Student Programs theme was "Preparing others to create their vision . . . as only NASA can." Each workshop, seminar, and training session was planned around that theme and presenters were chosen based on their area of expertise.

The workshop you presented exceeded our expectations and resulted in positive feedback from all participants. I take this opportunity to share the following participant comments with you as they are reflective of the overall experience.

*"Very enjoyable and informative. I learned a lot, both about the subject at hand and about myself"*

*"This was great"*

*"Excellent presentations, relevant materials, witty plus professional"*

*"It was nice to see that my father actually knows what he is talking about. Very informative and interesting overall"*

As you know it can be difficult to capture and hold the attention of students ranging from high school to undergraduate levels. I would like to thank you for conveying the information in a way that both held their attention and caused them to embrace the fundamental truths you shared about managing your career.

Sincerely,

A handwritten signature in black ink that reads "Pamela M. Biegert". The signature is fluid and cursive.

Pamela M. Biegert  
Chief, Education Programs  
& University Research Division
